

Rolling Thunder

Battle #11

C-Coy, 12th Tk Rgt, 4th Guards Tank Division

Letter from the commander

My soldiers!

Be proud, be brave and show no mercy. The scumbags of the so called "united" states have intervened in the local conflict and we can't let them act like some imperialist anymore. Its time to act my friends!

*I want first and second platoon to advance on **OBJ Sickle** and the third platoon and anti tank team will attack the **OBJ Hammer**.*

Recon team will be directly under my command to able to adjust quickly to the battlefield changing dynamic. The helicopter support we will receive during this operation will primarily support the recon team and help with recon. In case we need to bring up reinforcements to our tanks it will also be available.

Regards

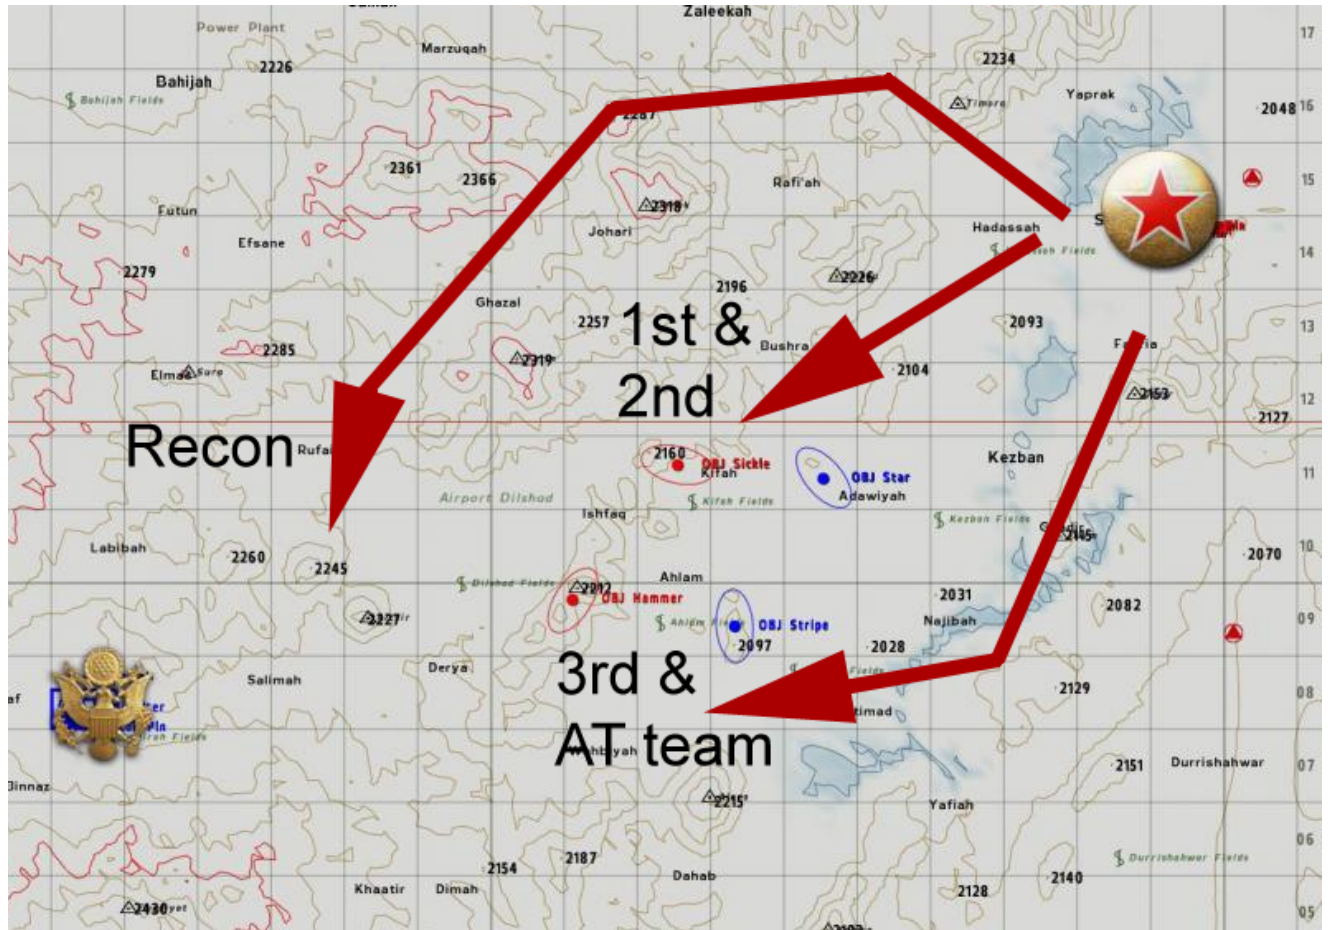

Company Commander

Radio-network

Graphical illustration of assigned channels.

All leader should be on the company network, keep your messages very short to avoid our frequency to be known. Each leader can then assign and change frequencies inside their platoon.

Recon team shall regularly perform signals intelligence, trying to pinpoint their channels and report their activities.
